

LO 410

Automatic Letter Opener

The Series 410 is the latest addition to the world's most advanced envelope opening product line. Utilizing state-of-the-art milling cutting technology, the LO 410 is a compact tabletop letter opener ideal for teams that need to open mail of mixed sizes and thicknesses as well as print receipt information on the envelope. The LO 410 quickly and efficiently opens mail at up to 400 envelopes per minute.

High-speed milling technology found in the LO 410, prevents cut contents and produces a smooth, soft and feathered edge.

Other cutters, such as slicing or guillotine style cutters, can often leave a jagged and rough cut edge that may result in painful paper cuts or damaged contents. The LO 410 opens envelopes edge-to-edge for easy content removal.

The large easy to read 5.5" display allows for simple navigation to job functions and settings. In combination with an integrated ink jet printer, the LO 410 offers mail counting as it is processed. Alternatively you can choose to imprint the mail with time and date.

Special Features

- 5.5" Digital Display
- Three cut-depth settings for optimal cutting
- Opens up to 400 envelopes per minute
- Opens a variety of mixed mail sizes and thicknesses
- Opens overnight envelopes
- Edge to edge envelope opening
- No-cut setting for envelope counting
- High Quality Ink Jet Printing
- Adjustable output tray for flats & longer envelopes
